CAC MISSION

To maximize grower returns by maintaining premium brand positioning for California Avocados and improving grower sustainability

CAC Priority No. 1

Position California Avocados as a premium product in order to optimize value*

**(for consumers, retailers, foodservice operators, wholesalers, growers)*

CAC Priority No. 2

Support industry strategy through research and outreach

CAC Priority No. 3

Advocate for, and engage with, the industry

CAC Priority No. 4

Cultivate organizational excellence / Demonstrate effective use of resources

INDUSTRY STRATEGIC INTENT 2020

Industry Strategic Intent 2020

California Avocados will occupy a premium position in the U.S. market

Key Industry Aspirations

California Avocado growers face a staggering array of challenges – sharply rising input costs, particularly water pricing and costs associated with regulatory compliance; the quality and availability of deliveries through the state’s water infrastructure; produce safety and invasive pest issues; and an ever-expanding volume of foreign fruit that constantly exerts downward pressure on farm-gate prices. At the same time, consumer demand for avocados in the U.S. continues to grow at a record pace. Over time, consumers are expected to continue to demand and find value in socially responsible products tailored to meet their lifestyle needs.

Consequently we aspire to the following outcomes:

- An assured place in the market
- A premium price to growers (to be quantified)
- Consistently high-quality production
- Highly productive growers (to be quantified)
- Highly efficient growers
- Consistent production from year-to-year
- Socially responsible practices
- Leaders in innovation
- Consumers perceive California Avocados to be an essential part of a healthy lifestyle

Preferred Marketplace Position

Competitive Advantages*

- California-grown
- Freshest product, picked at the peak of the season
- Consistency in taste and eating quality
- Small, multi-generational family farmers living on and caring for the land

Brand Positioning/Promise*

California Avocados are meticulously and responsibly grown by a select group of family farmers who still cultivate, nurture and harvest their fruit *by hand*...ensuring the world's best tasting, premium quality avocados.

**Drawn from CAC consumer research*

Target Markets

- Regional markets from Washington to California to Texas
- Strategic partnerships with retail and foodservice chains whose customers appreciate California's premium avocado

CAC Core Values

Core values clarify and make explicit the principles driving CAC decisions

- Value to the grower comes first
- Leadership is forward thinking, consensus-driven
- Our ethics and integrity are uncompromised
- We're accountable and transparent

Critical Factors for Success

- We're advocates for, and are engaged with, our industry
 - *It's not enough to run a good marketing program...moving the industry forward requires a partnership between the Commission and growers...each has a role to play and the Commission must be fully engaged with, and supportive of, the industry*
- We know and cultivate a grower profile that will fulfill Strategic Intent 2020
 - *Farmers must meet certain criteria to be viable in the future. It's critical for the industry to have a shared understanding of what that profile looks like and to promote an exchange of information that fosters continual improvement and sustainability*
- We understand what's driving consumer demand for California Avocados and we utilize that understanding in the development and execution of effective marketing programs
 - *Consumers will ultimately determine our future. It's critical we get into their heads and hearts to understand clearly why they currently value the product enough to pay a premium and what it will take to maintain that position. This will help us enhance our premium positioning through effective marketing and communications*
- We enjoy strategic partnerships in the marketplace
 - *Retailers and foodservice operators are the gatekeepers that give us access to the market. We must establish strategic alliances with key customers to maximize the profitability of California Avocados*
- We invest in the technical development of our industry – from the grove through the supply chain to the consumer
 - *A research and development function is in place that makes new technology a cornerstone for strengthening our position as a premium product, now and in the future*

CAC Strategic Intent

Fueling a premium positioning in the marketplace for California Avocados

CAC Priority No. 1:

Position California Avocados as a premium product in order to optimize value*

*(for consumers, retailers, foodservice operators, wholesalers, growers)

Rationale

California Avocados already enjoy a coveted market position as the most recognized and trusted avocado “brand” in the U.S. This distinction is critical since it creates the foundation for premium positioning—a “must have” for all California growers, who face higher costs of production than are borne by their competitors. Consumers who have an opinion about the origin of their avocados consistently prefer California-grown avocados over those from other sources. This preference usually corresponds with a willingness to pay premium prices when California Avocados are in season, as compared to prices paid at other times of the year. High perception of value by consumers ultimately means increased profitability for retailers, foodservice operators, wholesalers and, most importantly, growers. Premium positioning must never be taken for granted in the increasingly competitive U.S. market.

Objective 1: Increase demand for California Avocados in target markets in season

Consumer Strategies:

- 1A. Facilitate emotional connections between California Avocados and our target audience and encourage the sharing of key messaging amongst consumer and culinary advocates
- 1B. Concentrate communications in target markets leading up to and during the season
- 1C. Reinforce strong consumer associations between California Avocados and the American Summer Holidays timeframe (Memorial Day – Labor Day), highlighting July 4th as the premiere summertime California Avocado eating occasion
- 1D. Promote California Avocado usage for breakfast

Trade Strategies:

- 1E. Develop programs and incentives that stimulate retail and foodservice partners to commit to purchase Fresh California Avocados from the start of the season through the end of the season
- 1F. Develop new foodservice operator / retail partners and encourage Fresh California Avocado usage / merchandising among existing operators / retail partners
- 1G. Position American Summer Holidays (highlighting 4th of July) as the premier Fresh California Avocado promotional occasion
- 1H. Leverage relationships with supermarket dietitians and promote the nutrition benefits and usage versatility of Fresh California Avocados to key trade opinion influencers

Performance Measures:

- Using a prior two-year rolling average as a benchmark, use consumer research to measure improvements in:
 - consumer preference for California Avocados in target markets versus those from other sources
(65% prefer California, 11% prefer any other, 19% no preference)
 - attribute ratings of California Avocados in target markets
(40% rating for taste, 47% for premium quality, 59% for freshness)
 - aided awareness in target markets
(79% awareness in core markets)
 - percent of avocado shoppers in target markets who look for the origin of avocados and care about buying those that are U.S. grown
(30% look for origin, 57% find U.S. grown important)
- Using the 2012 CAC summer tracking study as a benchmark, measure improvements in:
 - Consumer association between avocados and July 4th
 - Reported usage of avocados at breakfast
- Using 2012 as a benchmark, measure improvements in California Avocado merchandising and coverage leading up to and during July 4th
 - percent of target retail customers merchandising California Avocados
 - number of California Avocado retail ads
 - number of displays
 - trade and consumer media impressions linking California Avocados and July 4th

Objective 2: Increase the value of California Avocados in target markets in season

Consumer Strategies:

- 2A. Create communications that highlight the value of premium, *Hand Grown in California Avocados*
- 2B. Persuade consumers to request California Avocados
- 2C. Differentiate California Avocados from other sources of supply
- 2D. Communicate the benefits of buying locally grown Fresh California Avocados
- 2E. Develop communications / activities that promote the nutritional benefits of California Avocados and leverage HAB nutrition research, messaging and tools, as appropriate
- 2F. Initiate a program to have the fruit branded as California

Trade Strategies:

- 2G. Communicate the competitive advantages (financial contribution, consistent quality and premium position) of Fresh California Avocados to the trade, leading into and throughout peak season
- 2H. Demonstrate the benefits of the California Avocado Commission marketing support and expertise to the trade
- 2I. Secure California Avocado branding in consumer advertising, messaging and merchandising conducted by trade channels

Performance Measures:

- Achieve positive variances for the California season vs. off season in regards to:
 - Variance between the average retail sales price of avocados sold in the California season and off-season
 - Total retail sales and volume of avocados sold in the California season as compared to off-season
 - Sales per store, per month during the California season vs. during the off-season
 - Volume: (units) per store, per month during the California season vs. during the off-season

Objective 3: Enhance California Avocado leadership position in the produce industry

Consumer Strategies:

- 3A. Forge and leverage relationships with category thought leaders and influencers
- 3B. Communicate the competitive advantage/benefits of the California Avocado industry growing practices
- 3C. Innovate and lead the industry in consumer communications

Trade Strategies:

- 3D. Position the California Avocado Commission as the “go-to” resource for avocado information in the trade
- 3E. Communicate California Avocado industry advances in Good Agricultural Practices, sustainable farming, food safety and other industry-leading initiatives

Performance Measures:

- Using a prior two-year rolling average as a benchmark, measure improvements in consumer ratings in target markets for California Avocados in areas related to industry leadership (52% rating as environmentally friendly; 61% rating for food safety; 49% rating for fair labor practices)
- Using 2012 as a benchmark, measure improvements in perceptions of California Avocado leadership by retailers
- Use an independent peer review to establish a baseline for measuring industry perceptions of California Avocado leadership within the produce industry

CAC Priority No. 2:

Support industry strategy through research and outreach

Rationale

The long-term success of the California Avocado industry hinges on grower profitability. A vital means to ensure such profitability in an increasingly competitive world is to invest in technical systems that give California Avocado growers a competitive advantage over other suppliers with respect to yields, consistency of production, fruit quality and costs of production. To achieve greater profits, the industry needs to invest wisely in research and outreach activities that address grower needs. Maximizing the benefits of research and directing research towards solutions that increase profitability requires focusing on “in-the-grove” problems and opportunities, and there must be a development pathway that facilitates the implementation of new knowledge and systems. This strategic priority is designed to implement a system that invests in the technical development of all aspects of the industry, both in the grove and through the supply chain to the end consumer. With limited resources, it’s critical that this new technical management system be industry-driven from the needs identified in the CAC strategic planning process, objectives are well-defined and time-certain, scientists are recruited based on their expertise given the specific industry challenge and there is greater accountability of the investment by California Avocado growers.

Objectives:

1. Improve the competitiveness of growers by enhancing their productivity and sustainability
2. Ensure consistently high-quality production to support CAC’s market development efforts

Strategies:

- A. Design and implement a technical investment management system that provides a framework for identifying and implementing solutions to problems in the grove or in the supply chain
- B. Educate California Avocado growers and other stakeholders and provide information and tools to improve their decision-making

Performance Measures:

- Increase average yield to 10,000 pounds per acre by 2020
- Reduce the cost of growing avocados by 5% by 2020 (compared to a 2010, cost-per-pound baseline)
- More than 70% of California Avocado growers utilize CAC-provided decision management tools and systems by 2020
- More than 90% of the fruit harvested meets the most desired fruit size profile and is free of defects by 2020

CAC Priority No.3:***Advocate for, and engage with, the industry*****Rationale**

A successful marketing program, by itself, is not enough to ensure the sustainability of the California Avocado industry. Farming continues to become more difficult as growers operate in an increasingly complex web of competition, regulation, market preferences, and shifting costs. Often, collective action is necessary to affect a positive outcome on a pressing issue that is impacting the industry. The Commission gives growers a mechanism to act in concert and speak with one voice. Through CAC, resources can be brought to bear on common issues like water prices, pesticide registrations, regulatory issues, and food safety concerns, to the benefit of all growers. It's imperative that issues affecting the avocado industry are proactively anticipated, prioritized and managed to shape outcomes that are compatible with the industry's future. CAC must have an issues management program that is ever-vigilant and focused on the future, to ensure that everything possible is being done to safeguard the industry's economic investment. CAC can also serve as a reservoir and conduit for information needed to make growers successful at the business of growing avocados. Informed decision-making is essential to this success and, with a robust outreach program, CAC can deliver relevant information uniquely tailored to California Avocado growers in a way that no other organization can, equipping them to leverage opportunities, redirect threats and adapt to change.

Objectives:

1. Proactively shape avocado industry issue outcomes that are compatible with the industry's key aspirations and CAC's values
2. Build a consensus on the strategic direction to be taken to achieve the industry's key aspirations
3. Enhance productivity and profitability through informed decision-making

Strategies:

- A. Anticipate and prioritize issues; develop and implement plans that shape issue outcomes
- B. Maintain a state of readiness, enabling CAC to respond immediately and strategically to crisis issues
- C. Collect and compile information vital to contending with our competition and other market forces
- D. Engage and communicate with growers/industry members and develop communication vehicles in multiple formats that deliver relevant information to the industry in a way that promotes discussion, consensus, action, and feedback

CAC Priority No. 4:***Cultivate organizational excellence / Demonstrate effective use of resources*****Rationale**

CAC can only assist the industry to realize its strategic intent if it has the full support of its constituents. Grower perception of the value of CAC is directly related to leadership the organization provides, its stewardship of assessment funds collected, and the efficacy of its efforts. Principles of transparency, accountability, and integrity must guide every Commission action. In 2009, CAC was reorganized and its efforts were refocused on strategic priorities that maximize the use of limited resources. Moving forward, CAC must continue to monitor its performance and continuously challenge itself to deliver value for every assessment dollar spent. This is the heart of the board-management partnership. In addition, maintaining a competent team of professionals also requires investment in employee development, and creation of an organizational culture where openness, creativity and innovation are encouraged and rewarded.

Objectives:

1. Ensure that the Commission has the proper leadership, organizational structure, and resources necessary to provide value to all assessment-paying growers
2. Maximize California Avocado grower return on investment while minimizing risk and maintaining proper stewardship of grower funds
3. Achieve continual improvement in the operation of the Commission and execution of its programs

Strategies:

- A. Conduct outreach efforts to continually identify and recruit new board members, and provide for their proper orientation
- B. Ensure that the assessment rate, revenue, and expenditures are appropriate to meet the industry's needs and grower expectations
- C. Allocate financial resources against industry priorities and develop a comprehensive risk management plan
- D. Create staff development programs that enhance competencies, maintain productivity, and improve effectiveness and job satisfaction

Performance Measures:

- Successful, timely board elections and orientation
- Successful vote in industry referenda
- Favorable, unqualified Independent Auditor's opinion on California Avocado Commission's basic financial statements
- Favorable California Department of Food and Agriculture Fiscal and Compliance Audit
- Utilize benchmarking to measure staff performance and program effectiveness that meet or exceed benchmarking targets

CONSUMER ADVERTISING

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Consumer Advertising	ACTIVITY: Media	AGENCY: DGWB

INDUSTRY AFFAIRS

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Industry Affairs	ACTIVITY: Industry Statistics and Information	AGENCY:
----------------------------------	--	----------------

PRIORITY 3: Advocate for, and engage with, the industry

OBJECTIVES:

1. Proactively shape avocado industry issue outcomes that are compatible with the industry’s key aspirations and CAC’s values
2. Build a consensus on the strategic direction to be taken to achieve the industry’s key aspirations
3. Enhance productivity and profitability through informed decision-making

STRATEGIES:

- A. Anticipate and prioritize issues; develop and implement plans that shape issue outcomes
- B. Maintain a state of readiness, enabling CAC to respond immediately and strategically to crisis issues
- C. Collect and compile information vital to contending with our competition and other market forces
- D. Engage and communicate with growers/industry members and develop communication vehicles in multiple formats that deliver relevant information to the industry in a way that promotes discussion, consensus, action, and feedback

ACTION STEPS	BUDGET	DELIVERABLES
<p>AMRIC Operation – The Avocado Marketing Research and Information Center (AMRIC) system provides the California Avocado Industry with daily inventory and shipment information to guide harvest/market strategies. AMRIC procedures require all avocado handlers operating in California to report their avocado inventory, by variety and size, and shipments by major-market destination, variety and size</p>	\$78,000	<ul style="list-style-type: none"> • Daily collection of bin counts by McCormac Enterprises • Provide industry members and AMRIC participants current and historical statistical information in a usable format within the boundaries of the program <ul style="list-style-type: none"> ○ Listen to data requests from industry and implement enhancements ○ Audit and track data reporting • Ensure secure and reliable data storage and monitoring <ul style="list-style-type: none"> ○ Upgrade data tools to stay current with supported technology and platforms
<p>Crop Forecasting and Analysis – The Avocado Crop-Estimating (ACE) system projects the annual production of California Avocados. Crop statistics are compiled by growing region, county and state throughout the year. This valuable information guides CAC marketing programs, as well as allows each grower to develop his/her own harvest strategies; with the big picture in mind</p>	\$83,000	<ul style="list-style-type: none"> • Conduct field meetings and engage with industry to develop initial crop estimate and stay apprised of any crop updates throughout the season • Conduct acreage inventory and analysis and update current avocado acreage for five major counties • Conduct a mid-season crop survey • Perform “ground-truthing” to verify accuracy of current crop/acreage information

ACTION STEPS	BUDGET	DELIVERABLES
<p>Grower Database – Maintenance of existing ACE grower database while transitioning to a new platform for an upgraded grower database (see action step below). Continually maintain and update current database to ensure integrity and confidentiality of grower information. Grower database is used for various mailings, such as election ballots, referenda, crop estimating surveys, annual reports and meeting notices</p>	<p>\$6,000</p>	<ul style="list-style-type: none"> • Annual update of database based on handlers' grower/grove information received from handlers • Update database on as-needed basis, based on information received via returned mail, grower sign ups, etc.
<p>Grove Database System Development – Using existing CAC grower and GIS databases, this project intends to develop a new, upgraded platform that will integrate all existing databases, as well as incorporate the ability to support grove location and ownership. The main purpose of this action step is to address item 3 in the 7-Point Plan: <i>“Modernize our data collection methods, to provide a much-needed foundation for improving crop estimating, redistricting, traceback and grower communications”</i></p>	<p>\$101,000</p>	<p>Development of the system may include:</p> <ul style="list-style-type: none"> • Purchase data on parcel ownership based on APN and automate update processing • Integrate geodatabase from acreage inventory and automate update processing • Develop system import/export functionality to connect eGreensheet email updates and Outlook Grower Contacts to provide cohesive data between systems • Develop full functionality of ownership database maintenance, searching and mailings • Integrate crop estimating system • Develop data portal for linking handler collection of field data
<p style="text-align: center;">INDUSTRY AFFAIRS – INDUSTRY STATISTICS AND INFORMATION SUBTOTAL:</p>	<p style="text-align: center;">\$268,000</p>	

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Industry Affairs	ACTIVITY: Grower Communications	AGENCY:
----------------------------------	--	----------------

ACTION STEPS	BUDGET	DELIVERABLES
Field Meetings, Seminars & Workshops – Events purposed to educate and update growers and industry stakeholders on pertinent industry issues	\$10,000	Events may include, but are not limited to: <ul style="list-style-type: none"> • District Grower Meetings • Grower Seminars
Field/Demonstration Days – Hands-on, “how-to”, events intended to encourage grower innovation and “best-of-best” information sharing	\$20,000	Events may include, but are not limited to: <ul style="list-style-type: none"> • Best Management Practices • Cultural Management • Small Grower Forums • Demonstration Grove
Educational Outreach – Provide industry with a reliable source for information on topics of vital importance to the operation of their business	\$55,000	<ul style="list-style-type: none"> • GAP/Industry Issues Outreach <ul style="list-style-type: none"> ○ Web-based GAP Self Audit & Online Education Center ○ GAP Educational Seminars • Decision Support Tools for Growers <ul style="list-style-type: none"> ○ Grove Snapshot/Scorecard ○ Read Your Trees Booklet • Pest and Disease outreach on an as needed basis • Contribution to update UC Davis IPM Manual
Online Information – Expand the reach of effective online communications to industry stakeholders. Enhance features on CAC’s grower site	\$115,000	<ul style="list-style-type: none"> • Continual maintenance and timely updates to CAC’s current grower site, www.californiaavocadogrowers.com • Update CAC’s grower site with the following activities: <ul style="list-style-type: none"> ○ Grower Homepage Re-Design ○ Greensheet Updates ○ Grower’s Forum ○ Edit Videos on the site

ACTION STEPS	BUDGET	DELIVERABLES
Publications – Develop practical and relevant information for growers and industry and present it in a format that is easily accessed and assimilated	\$94,000	Potential publications may include, but are not limited to: <ul style="list-style-type: none"> • CAC Greensheet (semi-monthly) • GAP Manuals • California Avocado Industry magazine (quarterly) <ul style="list-style-type: none"> ◦ Advertising revenue expected to offset budget line item by \$40,000 • Theft signs • Fact Sheets
Annual Meeting – Conduct annual meetings that generate industry awareness of CAC programs	\$10,000	Conduct three meetings (two North, one South), no later than April 30, 2012
Annual Report – Prepare annual report that generates industry awareness of CAC programs and fulfill CAC’s statutory obligation to report to the legislature	\$25,000	Produce and mail annual report, no later than April 30, 2012
INDUSTRY AFFAIRS – GROWER COMMUNICATIONS SUBTOTAL:	\$329,000	

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Industry Affairs	ACTIVITY: Issues Management	AGENCY:
----------------------------------	------------------------------------	----------------

ACTION STEPS	BUDGET	DELIVERABLES
Water Issues – Engage in anticipatory-issues management to identify, prioritize and address key water issues	\$175,000	CAC management will work with independent contractors to provide the following: <ul style="list-style-type: none"> • Monitor water issues that potentially impact agriculture and represent interests of industry stakeholders, before local and regional water agencies and industry associations • Analyze and evaluate current water issues and develop recommended action steps • Water strategy development • Economic/financial impact studies • Local water rate analysis and advocacy • Water efficiency improvements
Field/Technical Support – Develop and support technical initiatives to promote industry sustainability	\$25,000	Potential issues in this category may include: <ul style="list-style-type: none"> • Phytosanitary security • Section 18 emergency exemptions
Legislative & Regulatory Advocacy – Stay abreast of all regulatory, legislative and trade issues that affect the industry, develop position papers and advocate for stakeholders	\$50,000	Potential issues in this category may include: <ul style="list-style-type: none"> • Food safety/regulation • APHIS/ARS funding for Invasive Species (Polyphagous Shot Hole Borer, etc.) • Immigration Reform • Accelerated tax depreciation incentives • Conservation programs
Production Registrations – Explore potential product registrations for use on avocados in California and provide research support where needed	\$200,000	Potential products may include: <ul style="list-style-type: none"> • Sunny (uniconazole) • 6-BA (6-benzyladenine)
GAP Certification Incentive Program – Monetary assistance program designed to incentivize growers to become GAP certified	\$60,000	Program funding would provide a \$300 incentive towards completion of a GAP certification audit for up to 200 growers
INDUSTRY AFFAIRS – ISSUES MANAGEMENT SUBTOTAL:	\$510,000	

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Industry Affairs	ACTIVITY: Legal	AGENCY:
----------------------------------	------------------------	----------------

ACTION STEPS	BUDGET	DELIVERABLES
Elections – Perform routine election activities, per CAC Law	\$20,000	<ul style="list-style-type: none"> Conduct annual election with ballots returned no later than October 31, 2013 Fill mid-term vacancies as needed
Legal Support – Provide legal support for all CAC departments	\$40,000	<ul style="list-style-type: none"> CAC retains legal-support services to assist with contracts, trademarks, registrations and other transactional matters
Governance Support – Continue to refine the long-term strategic plan to guide CAC’s activities through 2020	\$25,000	<ul style="list-style-type: none"> Refine 2010-2020 Strategic Plan, as needed Produce business plan to be presented to the Board, no later than September 2013 Administrative support via outside contractors as needed to fulfill governance requirements (i.e. Minutes, Resolutions, etc.)
INDUSTRY AFFAIRS – LEGAL SUBTOTAL:	\$85,000	

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Industry Affairs	ACTIVITY: Other/Administrative	AGENCY:
----------------------------------	---------------------------------------	----------------

ACTION STEPS	BUDGET	DELIVERABLES
Coalitions Dues, Sponsorships & Reports – Form and participate in coalitions with other commodity boards and agricultural organizations to broaden support for industry-wide initiatives	\$14,000	Coalitions may include, but are not limited to: <ul style="list-style-type: none"> • Agriculture Coalition for Immigration Reform • National Council of Agriculture Employees • Alliance for Food & Farming • United Ag • Western Growers
Grant Writing – Pursue outside-funding opportunities for industry initiatives	\$15,000	Potential funding opportunities may include: <ul style="list-style-type: none"> • GAP/Food safety • Water quality and efficiency • Phytosanitary/pest management • Sustainability/Energy efficiency
Travel – Travel required by CAC staff to stay on top of industry issues and participate in industry events	\$60,000	Industry Affairs staff travel may include, but is not limited to: <ul style="list-style-type: none"> • Meetings with policy/decision makers • Grower seminars • District meetings • Local and international industry meetings/conferences
Office Expense – Expenses incurred by CAC non-marketing staff, in conducting day-to-day business activities	\$29,000	Examples of office expenses include, but are not limited to: <ul style="list-style-type: none"> • Computers/software/electronics • Paper/binders/supplies • Subscriptions to various online resources
INDUSTRY AFFAIRS – OTHER ADMINISTRATIVE SUBTOTAL:	\$118,000

PRODUCTION RESEARCH

CALIFORNIA AVOCADO COMMISSION ACTION PLAN 2012-13

PROGRAM: Production Research	ACTIVITY: Research	AGENCY:
-------------------------------------	---------------------------	----------------

PRIORITY 2: Support industry strategy through research and outreach

OBJECTIVES:

1. Improve the competitiveness of growers by enhancing their productivity and sustainability
2. Ensure consistently high quality production to support CAC's market development efforts

STRATEGIES:

- A. Maintain a technical investment management system that provides the framework within which solutions are identified and implemented on the grove or by an industry stakeholder
- B. Provide opportunities for up-skilling California Avocado growers and other industry stakeholders cultural and supply chain decision management

ACTION STEPS	START DATE	SCHEDULED COMPLETION DATE	BUDGET	DELIVERABLES
Pests and Diseases				
Development of Pheromone-Based Detection and Monitoring Systems for Invasive Scale Species Infesting Avocado	11/1/10	10/31/13	\$28,204	<ul style="list-style-type: none"> • Methods for mass rearing of different scale-insect species • Pheromones specific to each scale species identified
Survey for Armored Scales & Their Natural Enemies in California Avocados	11/1/10	10/31/13	\$31,000	<ul style="list-style-type: none"> • List of armored-scale species present in California • List of effective bio-control agents for armored scale in California
Optimization of Systemic Pesticides for the Management of Avocado Pests	11/1/10	10/31/13	\$20,516	<ul style="list-style-type: none"> • Information on the uptake, distribution and persistence of systemic-neonicotinoids pesticides injected into avocado trees • Injection of systemic insecticides • Trunk sprays of insecticides
Biology and Control of <i>Euwallacea</i> sp., the Vector of Fusarium Dieback Disease in California Avocado	8/1/12	10/31/14	\$138,401	<ul style="list-style-type: none"> • Information on potential control methods • Information on the biology of the <i>Euwallacea</i> ambrosia beetles • Dissemination of information to research, extension, and industry clientele

ACTION STEPS	START DATE	SCHEDULED COMPLETION DATE	BUDGET	DELIVERABLES
Identification of Shot Hole Borers and Determination of the Species of <i>Euwallacea</i> Affecting Avocado in California	4/1/13	10/31/13	\$19,494	<ul style="list-style-type: none"> • Beetles identity of specimens submitted for analysis to confirm that other dieback related projects are indeed working with the shot hole borer • Area of origin of the shot hole borer • Specific markers for the rapid recognition of Florida <i>Euwallacea</i> from the California <i>Euwallacea</i>
Identification and Management of Fusarium Dieback Disease on Avocado in California	3/1/13	10/31/14	\$44,500	<ul style="list-style-type: none"> • Possible control methods for fungi involved in Fusarium dieback
Sustained Chemical Control of Avocado Arthropod Pests	11/1/12	10/31/17	\$89,786	<ul style="list-style-type: none"> • New pesticides are evaluated and effective products are prioritized for registration • A sensitive method is developed to evaluate avocado thrips resistance to abamectin and fenpropathrin (Danitol) • An ELISA method is developed for use in optimizing applications of Movento and Sivanto • Grower demonstration trials assist in showing PCAs and growers the strengths and weaknesses of alternatives to abamectin for avocado thrips and perseia mite management • Systemic trunk treatments and trunk sprays are developed for possible future use against a variety of pests • Data are developed showing which new products are more or less selective in terms of their impact on natural enemies important in control of secondary pests on avocados
Rapid Diagnostic Assay for <i>Phytophthora</i> Species Attacking Avocado	11/1/12	10/31/14	\$15,000	<ul style="list-style-type: none"> • <i>Phytophthora</i> species and genus specific real time PCR detection assay

ACTION STEPS	START DATE	SCHEDULED COMPLETION DATE	BUDGET	DELIVERABLES
Identification of Predatory Mites Associated with Persea Mites in Mexico and Genetic Analyses of Native and Invasive Persea Mite Populations	11/1/12	10/31/13	\$45,000	<ul style="list-style-type: none"> • An updated list of candidate biological control agents associated with persea mite in California for the avocado growing community • Outreach to growers, pest control advisers, and agricultural researchers with updated information on the persea mite biological control program through CAS & CAC newsletters, the CAS Yearbook, the Center for Invasive Species Research (www.cisr.ucr.edu) and the Applied Biological Control (www.biocontrol.ucr.edu) webpages, UC IPM Online, and annual CAPCA meetings • Two peer-reviewed publications regarding (1) the origin of California's persea mite populations from Mexico and (2) identification of natural enemies associated with persea mite in California and Mexico, with special reference to species that could be introduced into the California avocado system for the biological control of persea mite
Pest & Disease Subtotal			\$431,901	
Breeding				
Enhancement of Avocado Productivity, Plant Improvement - Selection and Evaluation of Improved Varieties and Rootstocks	11/1/10	10/31/20	\$211,354	<ul style="list-style-type: none"> • A selection of seedling trees with promise as new-fruit cultivars • A selection of rootstocks tolerant to root rot and salinity planted in a trial
Screening and Evaluation of New Rootstocks with Resistance to <i>Phytophthora cinnamomi</i>	11/1/12	10/31/13	\$150,000	<ul style="list-style-type: none"> • Reduce the time to identify potential new rootstocks from advanced selections that are currently maintained at South Coast Field Station • Develop new rootstocks with superior tolerance to PRR

ACTION STEPS	START DATE	SCHEDULED COMPLETION DATE	BUDGET	DELIVERABLES
Utilization of Marker Assisted Selection for the Development of New Varieties with High Production	11/1/12	10/31/13	\$19,126	<ul style="list-style-type: none"> Maintain the mapping populations to allow for further future studies on the inheritability of traits using the population
Pest & Disease Subtotal			\$380,480	
Cultural Management				
Decision Support Tools for Avocado Production and Fruit Quality	2/1/12	1/31/18	\$138,000	<ul style="list-style-type: none"> A decision support tool that examines the relationship between climate, tree fertility status, and irrigation water quality (based on leaf nutrient concentrations) on yields in avocado A model quantifying the effects of leaf nutrient content, irrigation water salinity, and climate on avocado fruit quality and shelf life A dynamic economic model that will allow growers to help optimize profit in relation to management decisions
Improvement of Yield per Acre by Close Spacing, Pruning of Close-Spacing Hass and Lamb Hass Trees Combined with New Grower Education Classes	2/1/12	1/31/17	\$40,976	<ul style="list-style-type: none"> A demonstration grove where new avocado growers can learn cultural management Classes on basic avocado farming practices
Avocado Phenology - Using Digital Monitoring to Improve Grove Management Decisions	2/1/12	9/30/13	\$23,058	<ul style="list-style-type: none"> Proof of concept using pheno-cams to monitor phenology Comparative phenological calendar of avocado development in San Luis Obispo and Santa Barbara counties with avocado development in Ventura, Riverside and San Diego Counties
International Alternate Bearing Project	11/1/10	10/31/15	\$100,000	<ul style="list-style-type: none"> The causal mechanism of alternate bearing The most up-to-date information on alternate bearing from around the world New and innovative methods for managing alternate bearing

ACTION STEPS	START DATE	SCHEDULED COMPLETION DATE	BUDGET	DELIVERABLES
Meeting the Challenge of Salinity: Evaluation of Rootstock material from Israel - Phase 1	11/1/12	10/31/14	\$15,141	<ul style="list-style-type: none"> • Production of budwood from the 22 Israeli rootstock selections that can be used for further research and evaluation of adaptation to California environmental conditions
Meeting the Challenge of Salinity: Evaluation of Selected Rootstocks for Response to Salinity	11/1/12	10/31/16	\$63,000	<ul style="list-style-type: none"> • Provide a list of recommended rootstocks for improved salinity tolerance • Provide specific recommendations for improving water use efficiency based on real time, continuous monitoring of soil water status and salinity, and the degree to which this can be improved by using different rootstocks varying in salinity tolerance
Pest & Disease Monitoring Using Remote Sensing Technologies for a Sustainable Avocado Groves Management	11/1/12	10/31/16	\$27,700	<ul style="list-style-type: none"> • Generic Stress Map: The map will show the spatial distribution of areas in the field under stress with unknown agent or symptom for areas covered by collected imagery. • Initial pest/disease Outbreak Algorithm: A report will detail the algorithm development steps and results obtained using scouting data collected in Year 1
Cultural Management Subtotal			\$407,875
