

MEMORANDUM

DATE: October 31, 2018

TO: California Avocado Handlers, including Producers acting as Handlers

FROM: Monica Arnett, California Avocado Commission Director of Finance & Administration

SUBJECT: **2018-2019 CAC ASSESSMENT RATE**

Cc: Tom Bellamore, CAC President
Sam Santander, State Inspector/Enforcement

On October 11, 2018, the Board of Directors of the California Avocado Commission (CAC) voted to approve an assessment rate of 2.30% on all varieties of avocados produced in California. The effective date of this rate is November 1, 2018 continuing through October 31, 2019 on fruit received for handling during that time period.

As you are aware, each October the Commission is required by State law to:

“...establish the assessment for the following marketing season beginning November 1st and ending October 31st. In no event shall the assessment exceed 6½ percent of the gross dollar value of the year’s sales of avocados by all producers to handlers, or which are sold by handlers on behalf of producers.” California Avocado Commission Law § 67101.

Effective November 1, 2017, California avocado handlers, including producers acting as handlers, are required to remit payment of assessments in accordance with the recently amended California Avocado Commission (CAC) Law, which defines a “Producer” or “Grower” as follows:

“Producer” or “grower” means any person who is engaged within this state in the business of producing, or causing to be produced, avocados for market. “Producer” or “grower” does not include any person who has an average annual production of less than 10,000 pounds of avocados in the three preceding marketing years.

Determination of each producer’s assessment exemption status is made solely by the Commission and in August 2018 notification of producer exemption determinations was provided to all handlers and producers on record.

With regard to the submission of CAC Assessment Reports, all handlers, including producers acting as handlers, must continue to report the volume and value of all fruit received for handling in a given month. The enclosed 2018-2019 CAC Assessment Report allows for the deduction of exempt fruit from total volume and value being reported, resulting in a net volume and value for which assessments shall be paid.

In the case of producers acting as handlers that have been identified as exempt from payment of the 2018-2019 CAC assessment, monthly CAC Assessment Reports must continue to be submitted, even if no CAC assessment payment is required to be made. As noted above, please report the total volume and value of all fruit received for handling, including the exempt volume and value, and remit payment of assessments due on the calculated net volume and value. If these calculations result in zero assessment dollars due, you are still required to indicate this on the CAC Assessment Report and submit to CAC.

CAC Assessment Reports, along with assessment funds due, must be submitted to the Commission by the last day of the month following the month in which avocados were received for handling (i.e. November 2018 fruit received must be reported by December 31, 2018). If assessments are sent via wire transfer to CAC, funds must be sent to CAC's account no later than the last business day of the month in which assessments are due, and the Assessment Report must be concurrently submitted to CAC via mail, email or fax by the last business day of the month in which assessments are due. If assessment funds (checks) and Assessment Reports are sent via U.S. mail or overnight courier, they must be postmarked by the last business day of the month in which assessments are due.

Assessments which are not paid by the last day of the month following the month in which avocados were received for handling are considered delinquent and a ten percent (10%) late payment charge will be added at that time. In addition, interest at the rate of 1.5% per month begins accruing on the first day after the assessment payment is delinquent.

CAC selects a certain number of first handlers to be audited for compliance with the CAC Assessment Policy (attached) every year.

If you have any questions concerning the assessment for the 2018-2019 crop year or the reporting and payment procedures, please send an email to accountspayable@avocado.org or call (800) 344-4333.

CALIFORNIA AVOCADO COMMISSION

DEPT. LA 23728

CALIFORNIA AVOCADO COMMISSION
TERMS AND CONDITIONS OF ASSESSMENT POLICY

1. GENERAL INSTRUCTIONS

California Avocado Commission law (Food & Agricultural Code Section 67001 et seq.) requires handlers to deduct assessments from monies paid or credited from whom avocados were received, and to pay such monies (which are held in trust) to the California Avocado Commission.

2. DEFINITIONS

The following definitions apply to this Policy:

- A. **"Handler"** means any person who engages, in this state, in the operation of selling, marketing, or distributing avocados which he or she has produced or purchased or acquired from a producer, or which he or she is marketing on behalf of a producer, whether as owner, agent, employee, broker, or otherwise. "Handler" also includes any person engaged as a processor in the business of processing avocados. "Handler" does not include a cooperative bargaining association that recommends that its members market their avocados through specified handlers and which otherwise is not involved in the sale of avocados. "Handler" also does not include a retailer, except for a retailer who purchases or acquires from any producer, or handles on behalf of any producer, avocados which were not previously subjected to regulation by the Commission.
- B. **"Producer"** means any person who is engaged, within this state, in the business of producing, or causing to be produced, avocados for market. "Producer" does not include any person who has an average annual production of less than 10,000 pounds of avocados in the three preceding marketing years, as determined by the Commission.

3. CALCULATING ASSESSMENTS

- A. The assessment is set annually by the Commission. The Commission may use any reasonable method of calculation which will result in an assessment that does not exceed 6-1/2 percent of the gross dollar value of the year's sales of avocados by all producers to handlers, or which are sold by handlers on behalf of growers.
- B. If the assessment rate in effect was set as a percent of gross dollar value, the following will apply to the assessment calculation:
 - 1. The costs of picking or grove care performed by the handler which are deducted from the amount paid to the Producer must be added back into the amount paid to the producer for the purpose of calculating the assessment.
 - 2. Hauling, allowances credited to producers for delivery of avocados to the handler's dock are to be itemized on the handler's purchase statements and deducted from the price paid to the producer before computing assessments.

4. REPORTING AND PAYMENT

Assessment reports are to be filled out monthly, reporting the monthly volume received and price assigned, of avocados received for handling. Assessment reports and payments are due and payable on the last day of the month following the month in which avocados were received for handling. The assessment rate applied shall be that rate which was in effect at the time avocados were received for handling.

5. PENALTY AND INTEREST

- A. Assessments which are not paid by the last day of the month following the month in which avocados were received for handling are considered delinquent and a TEN PERCENT (10%) late payment charge will be added at that time. The postmark (Post Office cancellation date) on the envelope containing the payment shall be considered as date of payment, regardless of the date entered on the assessment form.
- B. In addition to the 10% late payment charge, interest at the rate of ONE AND ONE-HALF PERCENT (1.5%) per month will be charged on the unpaid balance. Interest begins accruing on the first day after the assessment payment is delinquent.

6. PRODUCER OBLIGATIONS

The producer is obligated to pay the assessments and determine that appropriate amounts have been deducted from payments made or credited to him by the handler.

7. HANDLER OBLIGATIONS

The handler is required to:

- A. Collect assessments and hold such funds as a trustee;
- B. File assessment reports and remit collected assessments to the Commission in a timely manner;
- C. Keep complete and accurate reports (as described below) of all avocados received, which shall be preserved for two years and made available to the Commission on demand; and
- D. All assessments shall be paid to the Commission by the handler first handling the avocados. Every handler shall be primarily and personally liable for the payment of any such assessment, and failure of a handler to collect the assessment from any producer shall not exempt a handler from liability.

8. PRODUCERS ACTING AS HANDLERS

- A. A producer who sells his avocados directly to a buyer who is not a handler is a handler and must also fulfill the assessment collection and reporting obligations of a handler.
- B. When the producer is also the handler, the assessment is based on the following, less amounts described in C, below, if applicable:
 - 1. The price received by the producer from buyers who are not handlers, or the pounds sold, marketed, or distributed by the producer to buyers who are not handlers (depending on the assessment method used by the Commission for that marketing season).
- C. If the assessment rate in effect was set as a percent of gross dollar value, the producer acting as a handler may deduct the following sales and packing costs from the basis determined pursuant to B. above before computing the assessments owed: containers, packing labor, hauling, and brokerage fees.

9. RECORDS TO BE MAINTAINED BY HANDLERS

- A. A monthly summary containing the date avocados were received, producer name, field receipt numbers, total pounds and varieties collected less any tare and cull weight, net pounds for which the producer was paid or credited, handler picking costs deducted from amounts paid to the producer, amounts paid to the producer, date producer was paid, and the assessment rate and amount related to each pack out.
- B. All field receipts, pack out reports and any other relevant information used to compile assessment reports.

10. VIOLATIONS

It is a misdemeanor to willfully furnish false reports, statements or records required by the Commission; to willfully fail to render or furnish a report, statement, or record required by the commission; or to secrete, destroy, or alter records required by the Commission.

11. QUESTIONS

In the event you have any questions regarding the payment of assessments, submission of assessment reports or other obligations under Commission law, please contact the Commission office.
