

Dear California Avocado Grower:

Industry indicators suggest a total crop volume of approximately 306 million pounds for the current crop year (2022). This crop estimating survey is one means of understanding the industry's overall productivity and current trends to California's farming practices (bearing, non-bearing, high-density planting, etc.).

In order to fine tune the California crop estimate and better predict the harvest flow to market, please provide your best estimate on your grove's production. Also, please review the accuracy of the grower/grove information listed below and provide corrections where necessary.

**Please fold the postage paid form so that BUSINESS REPLY MAIL shows on the front, tape and return it by April 30, 2022.**

<b>Grower/Producer Information</b>	
<b>CAC ID:</b>	
<b>Name:</b>	
<b>Mailing Address:</b>	
<b>Phone(s)/Fax:</b>	
<b>Email:</b>	
<b>Grove Information</b>	
<b>Grove Name:</b>	
<b>Grove Location:</b>	
<b>Grove City:</b>	
<b>Grove Zip Code:</b>	

PRODUCTION		Hass	Lamb-Hass	GEM	Other (avocado varieties)
<b>Current Planted Avocado Acres</b> <small>Include all avocado acreage regardless of age or condition</small>	<b>ACRES</b>				
<b>Estimated TOTAL Production</b> <small>Total yield in pounds for fruit that set during the 2021 flowering season</small>	<b>POUNDS</b>				

TREE DENSITY		Hass	Lamb-Hass	GEM	Other (avocado varieties)
<b>Bearing</b> <small>Include avocado trees, four years or older, that are currently yielding fruit, even if not at full production (because they were previously topped, grafted or damaged)</small>	<b>ACRES</b>				
	<b>TREE COUNT</b>				
<b>Non-Bearing</b> <small>Include avocado trees newly planted or stumped and not bearing fruit but future production is expected</small>	<b>ACRES</b>				
	<b>TREE COUNT</b>				

Return this completed form **NO LATER THAN APRIL 30, 2022** either by mail, or fax it to 949-208-3503 or go online to submit your estimate at:
